

README FILE:

Instructions

Step 1. Click on the Dunham Workbook Instructions file. Step 2. A box will appear, with a download button on the center-right side of the screen, click the button to download the file. The pdf file should open on your computer. The instructions will describe a series of Excel workbooks numbered 1 through 10.

Step 3. Click the Code Icon on the Github page and this gets you back to the list of Excel Workbooks. Use the same steps to select and download each workbook.

Step 4. Follow the instructions on the Dunham Workbook Instructions file, and use the spreadsheets to make your own statistical graphs.

MIT License

An MIT License is attached to this set of Microsoft Excel Templates; it is intended to ensure free use of these original compositions and to prevent unscrupulous users from licensing them for profit. The following provides the details. Basically, you are free to use these for your research, and there is no need for you to reference me as the author of the workbooks. The statistical routines are standard and exist in the public domain.
